## BRITISH BLUES: BACKING TRACKS

### British Blues Track 1

The first british blues track is based around the Peter Green tune 'Need Your Love So Bad'. The format is different to a normal 1, 4, 5 blues track and therefore helps to get more out of your normal blues licks. The track is in the key of A blues and the chord chart and chords are as follows:

#### THE CHORD CHART

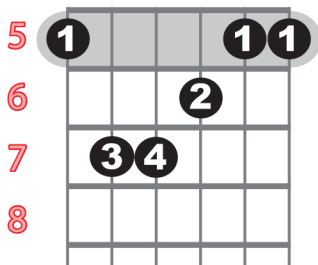

**A** ///// ///// **A7** ///// ///// **D** ///// /////

**Ebdim7** ///// ///// **A** ///// **F#m** /////

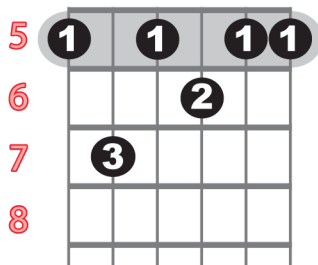

**Bm** ///// **E** ///// **A** ///// **D** ///// **A** ///// **E7** /////

When it comes to the rhythm we are deliberately keeping it nice and simple by just strumming the chord once on the 1st beat, and then attacking the chord on the 4th beat (to match up to the snare drum). If you would like to take this further then you could arpeggiate through the track.
